Misija i vizija

Vizija

- Osiguravanjem mogućnosti za mobilnost i međunarodnu suradnju u području znanosti, obrazovanja, osposobljavanja i mladih, Agencija pridonosi jačanju ljudskog i demokratskog potencijala, socijalnoj koheziji te konkurentnosti hrvatskog društva.

Misija

- Podupirati internacionalizaciju u svrhu unaprjeđenja kvalitete sustava znanosti, obrazovanja i osposobljavanja te područja mladih u Republici Hrvatskoj, a sukladno potrebama građana, društva i gospodarstva.

Horizon 2020 Funding

Starting from 1/1/2014

On this site you can find and secure **funding** for research & innovation projects under the following EU programmes:

- **2014-2020** Horizon 2020 - research and innovation framework programme
- **2007-2013** 7th research framework programme (FP7) and Competitiveness & Innovation Programme (CIP)

Non-registered users

- search for funding
- read the H2020 Online Manual & download the legal documents
- check if an organisation is already registered
- contact our support services or check our FAQs

Registered users

- submit your proposal
- sign the grant
- manage your project throughout its lifecycle

- Dvogodišnji
- natječaji (*calls*) → teme (*topics*)
- tema (*topic*) obuhvaća 3 glavna elementa + instrument:
 - **Posebni izazov/*Specific challenge***
 - **Opseg/*Scope***
 - **Očekivani učinak/*Expected impact***
 - **Instrument finansiranja /*Type of action***

Primjer teme u radnom programu

HORIZON 2020 – WORK PROGRAMME 2014-2015

Secure societies – Protecting freedom and security of Europe and its citizens

DS-2-2014: Access Control

Specific challenge: Security includes granting access only to the people that are entitled to it. Currently the most widespread approach relies on passwords. Managing the passwords has its limits and poses a challenge to the user, which adds vulnerabilities. Common practice is to use the same or similar password, which increases significantly the risk should the password be broken.

Scope: The focus is on the development and testing of usable, economic and privacy preserving access control platforms based on the use of biometrics, smart cards, or other devices. The solutions are to be installed and tested in a broad-band network, giving access to smart services running over networks with state-of-the-art security, avoiding single points of failure. Proposed work should include the management of the access rights in particular for the service providers, ensure the security and privacy of the databases, facilitate a timely breach notification and remediation to the user, and reduce the insider threat.

The proposed solutions have to guarantee interoperability and portability between systems and services, sparing the user to have to install a platform, service or country specific technology.

Proposed work could assist the objective of implementing a secure information sharing network.

The Commission considers that proposals requesting a contribution from the EU of between €3m and €8m EURO would allow this topic to be addressed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other amounts.

Proposals have to address the specific needs of the end-user, private and public security end user alike. Proposals are encouraged to include public security end-users and/or private end users.

Expected impact: Actions supported under this objective will deliver secure, but user-friendly, access to ICT systems, services and infrastructures, resulting in a consumerisation of devices for access control. The level of security of online services and critical infrastructures protected by these access systems should be demonstrably higher than by the state-of-the-art approach. The proposed solutions are expected to support the creation of commercial services making use of electronic identification and authentication.

Type of action: Innovation actions

The conditions related to this topic are provided at the end of this call and in the General Annexes.

Radni program ICT (3)

- **A new generation of components and systems**

- Smart-Cyber Physical Systems
- Thin, Organic and Large Area Electronics
- Smart System Integration
- Smart Anything Everywhere Initiative

- **Advanced Computing and Cloud Computing**

- Customised and low energy computing
- Cloud Computing

- **Future Internet**

- 5GPPP Research and Validation of critical technologies and systems
- 5GPPP Convergent Technologies
- Networking research beyond 5G
- Software Technologies
- Collective Awareness Platforms for Sustainability and Social Innovation
- Net Innovation Initiative
- Future Internet Experimentation – Building a European experimental infrastructure

Radni program ICT (4)

- Content

- ❑ Big Data PPP: cross-sectorial and cross-lingual data integration and experimentation
- ❑ Dig Data PPP: Large Scale Pilot actions in sectors best benefitting from data-driven innovation
- ❑ Bid Data PPP: research addressing main tech challenges of the data economy
- ❑ Big Data PPP: Support, industrial skills, benchmarking and evaluation
- ❑ Big Data PPP: privacy preserving big data technologies
- ❑ Media and content convergence
- ❑ Tools for smart digital content in the creative industries
- ❑ Support technology transfer to the creative industries
- ❑ Technologies for Learning and Skills
- ❑ Interfaces for Accessibility
- ❑ Gaming and gamification

Radni program ICT (5)

- **Robotics and Autonomous Systems**

- Advanced robot capabilities research and take-up
- System abilities, development and pilot installations
- System abilities, SME & benchmarking actions, safety certification
- Robotics Competition, coordination and support

- **ICT Key Enabling Technologies**

- Photonics KET 2016
- Photonics KET 2017
- Micro- and nanoelectronics technologies

- **U drugim područjima:**

- ICT in the Factories of the Future – tri teme
- Internet of Things – tri teme
- Digital Security – osam tema

Radni program ICT (6)

- **Innovation and Entrepreneurship support**

- Startup Europe for Growth and Innovation Radar
- Innovation procurement networks
- Pre-Commercial Procurement open

- **Responsibility and Creativity**

- Enabling responsible ICT-related research and innovation
- Boost synergies between artists, creative people and technologists

- **International Cooperation Activities**

- CHINA: Collaboration on Future Internet
- MEXICO: Collaboration on ICT
- International partnership building in low and middle income countries
- Koordinirani pozivi s Japanom, Južnom Korejom, Brazilom i Tajvanom

- **Konsolidacija inovacijskog dijela:**
 - Podupiranje core ICT industrija kroz nove PPP-jeve
 - Jačanje SME instrumenta
 - Nastavak FTTI
 - IoT i digitalna sigurnost
 - IoT i Big Data
- **Osiguravanje budućih tehnoloških komponenti**
- **Jačanje međunarodne dimenzije**
- **Jača integracija ICT dijela u ostalim društvenim izazovima**
- **Povećana potpora horizontalnim aktivnostima**
