Today, PwC is the largest professional services firm in the world. From banking and manufacturing to entertainment and high technology, we are involved in every facet of the global economy.

Currently we are looking for a Junior Consultant for IT Audit in our RAS group.

This department provides services related to controls around the financial reporting process, including business processes and IT management controls. The services include IT general controls and infrastructure assessments, ERP and financial application controls assessments, business process controls reviews, pre- and post-implementation system reviews, and data assurance projects.

What we seek:

- graduate students finishing Faculty of Economics (Managerial Informatics), Faculty of Organisation and Information Technology,
- interested in information systems audit,
- fluent in Croatian and having good knowledge of English,
- able to work in a diverse and dynamic environment,
- employment for a period of 6 months, starting from September 2013.

What we offer:

- a comprehensive on-boarding and induction programme,
- a team working environment,
- an established “buddy” system for new joiners,
- a dynamic and attractive working environment.
