MORE INFO ON summer-schools.fr/epitech

The aim of the program will be to create a **technical prototype** based on a specific technology related to the ecosystem of the city. Students will experience the **Epitech project based learning pedagogy** at one of Epitech campuses. In addition to technical modules, the program will include **company visits and cultural program** which will allow students to discover places of interest and the technological cityscape.

Dates	Type of activity	Location
July 1 to 5, 2019	«Mini-Pool» (Immersion into programming language C or Python) and Innovation session	One of 12 Epitech campuses in France (according to the major chosen)
July 8 to 20, 2019	Project Bootstrap at the Epitech Innovation Hub	

FEES

2200€ including tuition, cultural program, housing, breakfasts, lunches on weekdays, public transport pass.

A special discount applies to students from Epitech partner institutions.

ABOUT EPITECH

Epitech has been training 5400 students every year for over 19 years. Epitech is neither a technical college nor an engineering school. Its innovative teaching model is rooted in project-based learning. The model designed by Epitech has proven popular with companies and has been rolled out by a consistent international network: Epitech therefore exists in 13 French cities, 4 European cities (Barcelona, Berlin, Brussels, Tirana) and has over 80 worldwide partners. Epitech's network of exceptional international partners enables it to provide all its students with the opportunity to spend a year studying abroad to experience another culture, build contacts and prepare for a potential international career. Epitech has 17 innovation hubs putting it on the cutting edge of new IT and digital technologies and able to build quality connections with its ecosystem. Students at Epitech can thus create close bonds with the business world throughout their academic life.
